

Special Issue

Advanced Functional Materials for Photo/Electro-Catalysts for Environmental and Energy Applications

Message from the Guest Editors

The aim of the Special Issue is to establish sustainable advanced materials to address the water, atmospheric pollution and energy issues. As described in the Sustainable Development Goals (SDG6), sustainable water and sanitation are becoming increasingly more important in society, and atmospheric CO₂ emission, which causes climate change, global warming, and rising sea levels, represents another important issue. As per the Paris agreement, the global warming rate must be kept under 2 °C or lower than that related to pre-industrial level. It is thus urgent to develop innovative advanced materials with broad energy and environmental applications. This Special Issue covers durable innovative inorganic materials, organic materials, organic/inorganic hybrid materials and advanced functional materials for sustainable water, environmental remediation, solar utilization, and conversion into solar fuels. Papers on electrocatalytic water splitting, CO₂ reduction and fuels, and photo(electro)catalytic solar fuels are also welcome. Dr. Karthikeyan Sekar

Guest Editors

Dr. Sekar Karthikeyan

Department of Chemistry, SRM Institute of Science and Technology
Kattankulathur, India

Dr. Boopathy Ramasamy

Department of Environment and Sustainability (IMMT), CSIR-Institute of Minerals and Materials Technology, Bhubaneswar, India

Deadline for manuscript submissions

closed (30 April 2023)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Keith Hohn
Carl R. Ice College of Engineering, Kansas State University, Manhattan,
KS, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec,
CAPlus / SciFinder, CAB Abstracts, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Physical) / CiteScore - Q1 (General
Environmental Science)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 12.9 days after
submission; acceptance to publication is undertaken in 2.8
days (median values for papers published in this journal in
the first half of 2024).
