10th Anniversary of Cells— Advances in Cell Signaling and Regulated Cell Death

Message from the Guest Editors

2021 marks the 10th anniversary of the publication of *Cells*. We are delighted and proud to celebrate with a series of Special Issues and events. To date, the journal has published more than 4000 papers, and the journal website attracts more than 50,000 monthly page views. We would like to express our sincerest thanks to our readers, innumerable authors, anonymous peer reviewers, editors, and all the people working in some way for the journal who have made substantial contributions for years. Without your support, we would never have made it. To mark this important milestone, a Special Issue entitled “10th Anniversary of Cells—Advances in Cell Signaling and Regulated Cell Death” is being launched. This Special Issue will collect, research articles, and high-quality review papers in the Cell Signaling research fields. We kindly encourage all research groups working in Cell Signaling areas to make contributions to this Special Issue.

Guest Editors

Dr. Stephen Yarwood

Institute of Biological Chemistry, Biophysics, and Bioengineering,
School of Engineering and Physical Sciences, William Perkin Building,
Heriot-Watt University, Edinburgh EH14 4AS, UK

Dr. Tuula Kallunki

1. Cancer Invasion and Resistance, Danish Cancer Society Research
Center, Strandboulevarden 49, DK-2100 Copenhagen, Denmark
2. Department of Drug Design and Pharmacology, Faculty of Health and
Medical Sciences, University of Copenhagen, 2200 Copenhagen,
Denmark

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Prof. Dr. Alexander E. Kalyuzhny

Neuroscience, UMN Twin Cities, 6-145 Jackson Hall, 321 Church St SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.5 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
