

## Topical Collection

# Feature Papers in ‘Cellular Immunology’

### Message from the Collection Editor

This Topical Collection entitled “Feature Papers in Cellular Immunology” will collect high-quality research articles, communications, and review articles in cutting-edge fields of cellular immunology. Since the Topical Collection aims to illustrate, through selected works, frontier research in Cellular Immunology, we encourage Editorial Board Members of the Cellular Immunology Section of *Cells* to contribute feature papers reflecting the latest progress in their research field, or to invite papers from relevant experts and colleagues. We welcome manuscripts that emphasize phenotypic, biochemical, molecular features, and functional mechanisms of immune cells. Relevant research topics include, but are not limited to, the following:

- Innate immunity
- Adaptive immunity
- A bridge between innate and adaptive immunity
- Cross-talk between immune cells and tissue microenvironment
- Immunobiology and immunogenetics
- Tumor immunology
- Cells in immune-mediated diseases
- Immunopharmacology
- Infection immunology
- Neuroimmunology
- Transplantation immunology

## About the Journal

### Message from the Editorial Board

*Cells* has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

---

### Editors-in-Chief

Prof. Dr. Alexander E. Kalyuzhny

Neuroscience, UMN Twin Cities, 6-145 Jackson Hall, 321 Church St SE,  
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,  
Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.5 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
