The Past, Present and Future of NeuroHIV: A Perspective to A Cure

Message from the Guest Editor

The evolution of NeuroHIV has been remarkable according to the introduction of anti-retroviral treatment. Currently, the NeuroHIV field is changing rapidly and we need to inform the scientific community of the past, current, and future of the field. This Special Issue of Cells will focus on integration from patient behavior into basic biology. Finally, we will discuss new avenues of treatment toward preventing the devastating consequences of NeuroHIV and the unexpected branches of our research into numerous human diseases.

Guest Editor

Prof. Dr. Eliseo Eugenin

Department of Neuroscience, Cell Biology, & Anatomy, University of Texas Medical Branch (UTMB), Galveston, TX, USA

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Prof. Dr. Alexander E. Kalyuzhny

Neuroscience, UMN Twin Cities, 6-145 Jackson Hall, 321 Church St SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.5 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
