

Special Issue

Cell Biology of Viral Infections

Message from the Guest Editor

In this Special Issue of *Cells*, I would like to include both review papers and research articles that together can not only provide a glance into the latest research in the cell biology of viral infections but also highlight the major achievements in the field of virus–host cell interactions made in recent years. Studies covering all aspects of virus life cycles and interactions between viruses and host cells are welcome, which also include novel technological approaches. With this Special Issue, I aim to offer a space for enthusiastic discussions on future research directions on virus–host cell interactions and promote some areas that are understudied or emerging.

Participating Authors 1. Rong Zhang and Michael Diamond 2. Darius Moradpour and Jérôme Gouttenoire 3. Oliver Fackler 4. Harald Wodrich 5. Angela Pearson 6. Jamel Mankouri 7. Florian Schmidt 8. Ali Amara

Guest Editor

Dr. Pierre-Yves Lozach

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Prof. Dr. Alexander E. Kalyuzhny

Neuroscience, UMN Twin Cities, 6-145 Jackson Hall, 321 Church St SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.5 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
