

Special Issue

Exclusive Review Papers in "Cell Signaling"

Message from the Guest Editor

Under the section "Cell Signaling", this Special Issue aims to publish high-quality review articles within the field of cell signaling in evolution, development, physiology, health, and disease. We kindly encourage all research groups covering relevant areas within the section's scope to contribute up-to-date, full-length comprehensive reviews highlighting the latest developments in their research field, and to invite relevant experts and colleagues to do so. Distinguished researchers from all over the world will be invited to contribute to this Special Issue. We request that potential contributors/invited authors submit a tentative title and a short abstract to our Editorial Office (cells@mdpi.com) for pre-evaluation. Please note that selected full papers will still be subjected to a thorough and rigorous peer review. All papers will be published on an ongoing basis. The papers will be published with full open access after peer review.

About the Journal

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Editors-in-Chief

Prof. Dr. Alexander E. Kalyuzhny

Neuroscience, UMN Twin Cities, 6-145 Jackson Hall, 321 Church St SE,
Minneapolis, MN 55455, USA

Prof. Dr. Cord Brakebusch

Biotech Research & Innovation Centre, The University of Copenhagen,
Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Cell Biology) / CiteScore - Q1 (General Biochemistry, Genetics and Molecular Biology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.5 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024).
