

## Special Issue

# Organic Chemistry Research in Italy

### Message from the Guest Editor

This Special Issue of *Chemistry* regarding Italian research will publish reviews/perspectives on all fields of organic chemistry and applied organic chemistry, as well as research articles on hot topics. The topics may embrace new synthetic methods, bio-organic chemistry, organo-metallic chemistry, heteroatom chemistry, asymmetric syntheses, heterocyclic chemistry, carbocycles, macrocycles, natural product chemistry, green chemistry, organocatalysis, biocatalysis, transition metal catalysis, heterogeneous catalysis, mechanochemistry, click reactions, microwave chemistry, ionic liquids, flow chemistry, supramolecular chemistry, photochemistry, suitable aspects of medicinal chemistry and polymer chemistry as well as organic optoelectronic materials. Theoretical aspects, including mechanisms, are also within the scope of this Special Issue.

### Guest Editor

Dr. Angelo Frongia

Dipartimento di Scienze Chimiche e Geologiche, Università degli Studi di Cagliari, Complesso Universitario di Monserrato, S.S. 554, Bivio per Sestu, I-09042 Monserrato, CA, Italy

### Deadline for manuscript submissions

closed (31 March 2023)

## About the Journal

### Message from the Editor-in-Chief

Chemistry is a broad science and in *Chemistry* we hope to showcase the excellence of this fundamental discipline. Open Access publishing allows scientists to publish their research in a way that reaches the widest possible audience. In *Chemistry* we aspire to build a genuinely transdisciplinary culture in which communication of results between scientists active in different areas and between scientists and the broader public highlights the benefits that chemistry can bring to society. We encourage papers on all aspects of chemistry ranging from astrochemistry to zoochemistry, with everything in between. We also very strongly welcome inter- and multidisciplinary papers which expand the subject beyond its present horizons. We also welcome themed issues collecting reviews and state-of-the-art papers in topical areas of chemical science.

---

### Editor-in-Chief

Prof. Dr. Igor Alabugin  
Department of Chemistry and Biochemistry, Florida State University,  
Tallahassee, FL 32306, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, and other databases.

#### Reliable service:

rigorous peer review and professional production.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 13.4 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2024).
