

Special Issue

Carbon Quantum Dots: From the Design Synthesis to the Chemo and Biosensor

Message from the Guest Editor

This Special Issue on “Carbon Quantum Dots: From Synthesis Design to the Chemo- and Biosensor” will provide the scientific community with a state-of-the-art and systematic overview of the recent developments in the synthesis progress concerning materials/methods, surface modifications, characterization methods, purification techniques, and applications as chemosensors and biosensors, promoting thus a comprehensive comparison of the characteristics of CQDs and their influences on the chemo or bio-analytical control. This Special Issue intends to constitute a comprehensive handbook for researchers on the selection strategy of CQD design according to their objective application, covering the whole process, from the synthesis to the final stage of application as a chemo- or biosensor.

Guest Editor

Dr. João Prior

LAQV, REQUIMTE, Laboratory of Applied Chemistry, Department of Chemical Sciences, Faculty of Pharmacy, University of Porto, Porto, Portugal

About the Journal

Message from the Editorial Board

Chemosensors continues to grow as a forum for all manners of sensing that encompass chemistry. *Chemosensors* is published in open access format – all articles and content are released on the internet immediately following acceptance, thus allowing unlimited access to the content as soon as it is published. We would be happy to have you join our growing list of authors.

Editors-in-Chief

Prof. Dr. Jin-Ming Lin

Department of Chemistry, Beijing Key Laboratory of Microanalytical Methods and Instrumentation, Tsinghua University, Beijing 100084, China

Prof. Dr. Nicole Jaffrezic-Renault

Institute of UTINAM, UMR-CNRS 6213, University of Franche-Comté, 16 Gray Road, 25030 Besançon, France

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Engineering Village and other databases.

Journal Rank:

JCR - Q1 (Instruments and Instrumentation) / CiteScore - Q2 (Analytical Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2024).
