

Special Issue

Chemosensors in Biological Challenges

Message from the Guest Editors

This Special Issue comprises selected papers related to topics in chemosensors in biological challenges. The Special Issue is based on the conference Chemical Sciences in Biological Challenges. The Chemical Sciences in Biological Challenges combines life and health sciences with bio- and natural sciences. In this Special Issue, chemosensors meet the challenges of biological environments from the perspective of drug development, environmental sciences as well as the circular economy. The use of the chemical method and applications in biological questions, including but not limited to: Bioanalytical chemistry; Electrochemical devices and sensors; Optical chemical sensors; Imaging; Spectroscopy; Analytical apparatus; Quantitative analysis; microfluidic devices; lab-on-a-chip, single molecule sensing; nanosensors; medical analyzers; gas sensors; electronic nose; electronic tongue; pH sensors; humidity sensor

Guest Editors

About the Journal

Message from the Editorial Board

Chemosensors continues to grow as a forum for all manners of sensing that encompass chemistry. *Chemosensors* is published in open access format – all articles and content are released on the internet immediately following acceptance, thus allowing unlimited access to the content as soon as it is published. We would be happy to have you join our growing list of authors.

Editors-in-Chief

Prof. Dr. Nicole Jaffrezic-Renault

Institute of Analytical Sciences, UMR CNRS 5280, Department LSA, 5
Rue de La Doua, 69100 Villeurbanne, France

Prof. Dr. Jin-Ming Lin

Department of Chemistry, Beijing Key Laboratory of Microanalytical
Methods and Instrumentation, Tsinghua University, Beijing 100084,
China

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus /
SciFinder, Inspec, Engineering Village and other
databases.

Journal Rank:

JCR - Q1 (Instruments and Instrumentation) / CiteScore -
Q2 (Analytical Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 17.1 days after
submission; acceptance to publication is undertaken in 2.6
days (median values for papers published in this journal in
the first half of 2024).
