

# Special Issue

## Highlights in Pediatric Anesthesia and Intensive Care

### Message from the Guest Editors

This Special Issue invites original research articles, notable clinical findings, and review articles that present and discuss advancements in research and innovative approaches involving anesthesia and intensive care, covering different aspects of translational research and treatments in children and neonates. We especially encourage the submission of interdisciplinary and multi-country collaborative research. We welcome the submission of original research papers using different study designs and critical and relevant reviews, including systematic reviews. Keywords

- pediatric anesthesia
- pediatric intensive care
- enhanced recovery after surgery
- hemodynamic monitoring
- mechanical ventilation
- nutrition
- rare diseases
- perioperative care
- sedation
- neonatology
- pain

---

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.
