

Topical Collection

Brilliant Young Researchers in Clean Technologies

Message from the Collection Editor

This [Topical Collection](#) is dedicated to brilliant researchers in the development of clean and novel technologies who have shown a promising curriculum at an early age. Manuscripts covering original research as well as review articles, short communications, and perspective articles are acceptable for submission. If interested, please send your CV and the title and abstract of your work to patricia.luis@uclouvain.be. Outstanding authors will be formally invited. We look forward to receiving key contributions in the field.

About the Journal

Message from the Editor-in-Chief

Clean Technologies (ISSN 2571-8797) is an international, open access journal of novel scientific research on technology development aimed at reducing the environmental impact of human activities. *Clean Technologies* publishes reviews, regular research papers, communications and short notes which show a significant advance in the development of sustainable technology that reduces energy consumption, environmental pollution and/or the use of water and nonrenewable resources. Our aim is to encourage scientists to publish their experimental and theoretical research in detail as open access, serving a trustable base of advance for the scientific community.

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Environmental) / CiteScore - Q1
(Environmental Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 30 days after submission; acceptance to publication is undertaken in 6.4 days (median values for papers published in this journal in the first half of 2024).
