## Climate: 10th Anniversary

### Message from the Guest Editors

2023 marks the 10th anniversary of the journal *Climate* (ISSN 2225-1154). *Climate* is an independent, international and multi-disciplinary open access journal focusing on climate processes, interactions and feedbacks across the Earth system, covering all spatiotemporal scales and involving a diversity of modelling, analysis and observation methods. Its 2021 CiteScore is 4.7, ranking Q2 in the category “*Atmospheric Science*”. Until now, *Climate* has published more than 900 papers, among which more than 280 have received more than 10 citations. We sincerely appreciate and value the contributions made by authors, reviewers and academic editors. To celebrate this 10th anniversary, we are arranging a special issue entitled “Climate: 10th Anniversary”. This special issue will include high-quality papers on topics within the broad scope of *Climate*. We particularly welcome review and perspective articles on developments over the last 10 years in different areas and methods of climate science, which also highlight open problems and promising research directions, paving new and emerging pathways at and beyond the frontiers of Climate science.

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Dr. Timothy G. F. Kittel  
Institute of Arctic and Alpine Research, University of Colorado Boulder,  
Boulder, CO 80309-0450, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, ESCI (Web of Science), GeoRef, AGRIS, and other databases.

##### Journal Rank:

JCR - Q2 (Meteorology and Atmospheric Sciences) /  
CiteScore - Q2 (Atmospheric Science)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.9 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2024).
