

## Special Issue

# Novel Advances in Refrigeration Systems and Packaging Solutions: Impact in Climate Change and Food Products

### Message from the Guest Editor

The scope of this Special Issue focuses on the current research accomplishments and the various approaches used to optimize the operation, performance, efficiency, and feasibility of refrigeration systems by experimental, numerical, or analytical techniques, and includes the review of challenges for the optimization and development to extend the usage of these systems with low climate impact. Research on materials, technologies, and novel approaches to services, as well as on procedures to extend the shelf life of food products and simultaneously improve their life cycle is determinant for reducing the influence of food packaging on climate change and the influence of climate change on food products. Therefore, we invite the submission of papers on topics including but not limited to innovative technical developments, experimental studies, numerical modelling, reviews, case studies, analyses, as well as assessments, future prospects, and suggestions of potential approaches on emerging technological solutions which are relevant for further improvements to food refrigeration systems and sustainable packaging solutions.

### Guest Editor

Dr. Pedro Dinis Gaspar

C-MAST-Center for Mechanical and Aerospace Science and Technologies, University of Beira Interior, 6201-001 Covilhã, Portugal

### Deadline for manuscript submissions

closed (30 April 2022)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Dr. Timothy G. F. Kittel  
Institute of Arctic and Alpine Research, University of Colorado Boulder,  
Boulder, CO 80309-0450, USA

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, ESCI (Web of Science), GeoRef, AGRIS, and other databases.

##### Journal Rank:

JCR - Q2 (Meteorology and Atmospheric Sciences) /  
CiteScore - Q2 (Atmospheric Science)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.9 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2024).
