

Special Issue

Communications from TechnoHeritage 2017

Message from the Guest Editors

The international conference TechnoHeritage 2017 was held in Cadiz, Spain, 21-24 May, 2017. More of 200 communication, with high scientific value, from 23 different countries, were presented. A Special Issue of selected papers from TechnoHeritage 2017 will be published in Coatings. Submissions relating to any of the following topics are welcomed:

- Cleaning products and processes;
- Consolidants;
- Hydrophobic and Superhydrophobic products;
- Self-cleaning and Anti-graffiti agents;
- Biocides and bioreceptivity processes;
- Depollutant products.

Guest Editors

Prof. Dr. María J. Mosquera

Departamento de Química-Física, Facultad de Ciencias, University of Cadiz, 11510 Puerto Real, Cádiz, Spain

Prof. Dr. M.L. Almoraima Gil

About the Journal

Message from the Editorial Board

Now more than ever, research is asked to deliver knowledge and technologies to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed in the spotlight of most contemporary research. Surface science and engineering play a key role in this regard, with an incredible potential in delivering new and deep scientific understanding and technical solutions essential to solve most of the major societal challenges.

Coatings is a well-established, peerreviewed, online journal dedicated to the vibrant field of surface science and engineering. Coatings publishes original research articles that report cutting-edge results and review papers that make the point on the hottest research topics.

Editors-in-Chief

Prof. Dr. Wei Pan

State Key Laboratory of New Ceramics and Fine Processing, School of Materials Science & Engineering, Tsinghua University, Beijing 100084, China

Dr. Emerson Coy

NanoBioMedical Centre, Adam Mickiewicz University in Poznań, ul. Wszechnicy Piastowskiej 3, 61-614 Poznań, Poland

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Surfaces, Coatings and Films)
