

## Special Issue

# Feature Reviews in Colloids, Nanomaterials, and Interfaces

### Message from the Guest Editors

In this Special Issue, various aspects of colloid and interface science as well as nanomaterials are considered. A significant part of this Issue is focused on topics related to research performed in the framework of Marie Skłodowska-Curie Innovative Training Networks, which are one of the most important sources of scientific funding in the European community and partner countries. The NanoPaint project was funded in the beginning of 2021 for four consecutive years and includes 14 partners from all over EU, as well as from the UK and Israel. The project organiser is Professor Tatiana Gambaryan-Roisman, Darmstadt University, Germany. Both Co-Editors of the Special Issue (Alexander Kamyshny, Israel, and Victor Starov, UK) are participants of the nanoPaint project.
