Cosmetics in the Age of Green Technologies

Message from the Guest Editors

Dear Colleague, Plants have long been the primary source of active ingredients for pharmaceuticals and cosmeceuticals. Today, the cosmetics and cosmeceuticals industries must continuously innovate in order to ensure the efficacy and safety of their products. While the golden age of chemistry for the development of innovative cosmetics resulted in a significant reduction in the use of natural ingredients, recent controversies over such products that could negatively impact human health or the environment have provided an impetus to reintroduce plant-based raw materials into cosmetic formulations and reinforced the need to explore the unique potential of plants. This Special Issue welcomes original research papers and/or reviews describing the development of novel plant, extract, ingredient, or formulation for cosmetics using green technologies, and other related fields.

About the Journal

Message from the Editor-in-Chief

Cosmetics is an international, scientific, open access journal on the science and technology of cosmetics, published by MDPI online quarterly. Original articles, reviews and other acceptance. The scientific community and the general public can unlimitedly access the content free of charge as soon as it is published. As a new journal, the publication fees are fully waived for papers submitted to *Cosmetics* in 2017. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Enzo Berardesca
Department of Dermatology and Cutaneous Surgery, University of
Miami, Miami, FL 33136, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Dermatology) / CiteScore - Q1 (Surgery)
