Impacted Teeth: Biological Heritage or Clinical Limit?

Message from the Guest Editor

Teeth impaction has always presented a challenging topic, not only for oral surgeons but also for every clinician who approaches dentistry. Over the years, impacted teeth management possibilities have widely increased, mainly because of technological developments in the dental field, which led to new diagnostic methods and modern therapeutic approaches. Nowadays, research focus is highly set on teeth impaction early prevention and non-extractive therapies, such as teeth autotransplantation and mini-invasive orthodontic recovery. Under these terms, dental impaction could become almost an opportunity instead of an insurmountable clinical problem. The aim of this Special Issue is to collect original papers that address this intriguing topic, such as narrative or systematic reviews, meta-analyses, pre-clinical studies, or clinical trials.

About the Journal

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Claude Jaquiéry
Department for Cranio-Maxillo-Facial Surgery, University Hospital
Basel, Spitalstrasse 21, CH-4031 Basel, Switzerland

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Dentistry, Oral Surgery and Medicine) /
CiteScore - Q2 (General Dentistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 26 days after submission; acceptance to publication is undertaken in 4.5 days (median values for papers published in this journal in the first half of 2024).
