

Special Issue

Oral Implantology and Rehabilitation

Message from the Guest Editor

Dental implants have been proven to be safe and predictable devices to restore edentulous areas. Recently, the focus of scientific research has shifted to surgical and prosthetic factors capable of maintaining osseointegration over time, to factors capable of reducing bone resorption, and to the prevention of peri-implantitis. This Special Issue is interested in all aspects of dental implantology dealing with this topic.

About the Journal

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Claude Jaquiéry

Department for Cranio-Maxillo-Facial Surgery, University Hospital
Basel, Spitalstrasse 21, CH-4031 Basel, Switzerland

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Dentistry, Oral Surgery and Medicine) /
CiteScore - Q2 (General Dentistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 26 days after submission; acceptance to publication is undertaken in 4.5 days (median values for papers published in this journal in the first half of 2024).
