Oral Cancer: Diagnosis and Treatment

Message from the Guest Editor

The number of patients with oral cancer, especially those of an older age, has been growing. Generally speaking, diagnosis at a low stage is effective for a good prognosis, and recently, a new molecular target drug was found to prolong survival after recurrence and distant metastasis. Although treatment results can be improved through chemoradiotherapy and surgery with wide resection and reconstruction, older patients suffering from any diseases that prevent the use of surgery and chemotherapy cannot receive aggressive treatment, and we must always consider the treatment appropriate for each patient according to their personal characteristics. This Special Issue will publish new information on the diagnostics and treatment of oral cancer, including new molecular target drugs, treatment according to patients' risk factors, complications, and post-treatment functional disorders. Reviews and case reports are welcome for submission.

About the Journal

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Editor-in-Chief

Prof. Dr. Claude Jaquiéry

Department for Cranio-Maxillo-Facial Surgery, University Hospital
Basel, Spitalstrasse 21, CH-4031 Basel, Switzerland

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Dentistry, Oral Surgery and Medicine) /
CiteScore - Q2 (General Dentistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 26.2 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2024).
