Brain Imaging in Acute Stroke

Message from the Guest Editor

Imaging in the setting of acute stroke aims at establishing a diagnosis quickly and accurately, including the assessment of cerebral vessels, as well as brain perfusion, in order to help clinicians make treatment decisions and develop clinical guidelines. The primary goals of this Special Issue are to emphasize the role of neuroimaging in the diagnosis of acute stroke, describe the state of the art in imaging of acute stroke and review imaging modalities used to assess acute stroke.

Guest Editor

Dr. Ahmed Abou Elseoud

Department of Neuroradiology, University of Helsinki, Helsinki University Hospital, Helsinki, Finland

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
