

## Special Issue

# Diagnosis of Spinal Tumors 2.0

### Message from the Guest Editor

Primary and metastatic tumors of the spine are demanding lesions in terms of diagnosis and management because they are often asymptomatic or have non-specific characteristics. Delayed diagnosis is not very unusual, and sometimes spinal instability or neurological compromise may be the presenting symptom. Optimal diagnosis and treatment of spine tumors require a multidisciplinary approach and thorough knowledge of both spinal surgery and musculoskeletal oncology. This Special Issue highlights the relevance of spinal tumors, particularly related to diagnostic parameters and innovative approaches.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
