Advanced Musculoskeletal Imaging in Clinical Diagnostics

Message from the Guest Editor

Advanced musculoskeletal imaging in clinical diagnostics plays a pivotal role in the accurate diagnosis and treatment of various musculoskeletal disorders. With the advent of advanced imaging techniques, such as MRI, CT, and PET, clinicians are now able to obtain detailed, high-resolution images of the bones, joints, muscles, and tendons. These techniques provide invaluable information on the structure, function, and pathological changes of the musculoskeletal system, enabling early detection and precise assessment of injuries, degenerative diseases, infections, and tumors. The non-invasive nature of these imaging modalities, coupled with their ability to visualize soft tissue structures, has made them indispensable tools in clinical diagnostics.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
