

Special Issue

Neuroimaging: Brain Function and Structure

Message from the Guest Editor

We have the great pleasure to invite you to submit your work to this Special Issue on “Neuroimaging: Brain Function and Structure”. Imaging plays a key role in assessing the relations between brain function and structure in basic research as well as diagnosis and prognostic assessment of brain diseases. Moreover, it has recently become clear that the brain also interacts strongly with pathologies outside of the brain, such as inflammatory and immune diseases. We intend to establish a collection of excellent publications on this topic and to provide a venue for networking and communication between scholars in the fields of basic brain research, brain diseases and diagnostic imaging. Original research articles, reviews, short communications, case reports, and interesting images are welcome, as well as clinical or basic research. All papers will be fully open access upon publication after peer review.

Guest Editor

Prof. Dr. Andreas Hess

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
