

Special Issue

Diagnosis and Management of Multiple Sclerosis and Related Complications

Message from the Guest Editor

We have the pleasure to invite you to submit your work to this Special Issue on "Diagnosis and Management of Multiple Sclerosis and Related Complications". A variety of tests may be used when evaluating a person for MS, including an MRI to detect lesions in the central nervous system, a physical examination, evoked potentials, blood tests, lumbar punctures and other types of tests. We intend to establish a collection of excellent publications around this theme and provide a venue for networking and communication between scholars in the field of diagnosis and management of multiple sclerosis. Original research articles, reviews, short communications and interesting images are welcome, as well as either clinical or basic research. All papers will be fully open access upon publication after peer review.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.3 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
