

Special Issue

Cardio-Renal Metabolic Syndrome: Interdisciplinary Diagnostic Methods

Message from the Guest Editor

This Special Issue intends to cover scientific and experimental data and information related to modern and complex interdisciplinary diagnosis, in directions such as:

- New methods for evaluating metabolic cardio-renal diseases;
- Nutritional, pharmacological, and rehabilitation interventions in metabolic diseases and their complications;
- Diagnostic algorithms from medical history/clinical picture to imaging, biochemical, molecular, and genetic tests;
- New markers for assessing cardio-metabolic risk, such as clinically significant molecules, intestinal microbiota, etc.;
- The role of plant-derived natural compounds/biologically active phytochemicals in chronic metabolic diseases;
- Impact of novel guidelines in real-life studies for the diagnosis and treatment of cardio-metabolic diseases;
- Treatments with beneficial effects in the risk of cardiovascular morbidity and mortality;
- Interdisciplinarity in diagnosis and interventions.

Original research articles and reviews are equally welcome.

Guest Editor

Prof. Dr. Simona Gabriela Bungau

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
