Special Issue

Fetal Medicine

Message from the Guest Editor

The practice of fetal medicine has major implications for individual families as well as for the entire society. Rapid evolution of this branch involves specific subspeciality training and updating in order to provide a high-quality standard of care. The aim of this Special Issue of Diagnostics is to explore recent advances and developments in fetal medicine, including early diagnosis of fetal abnormalities, screening and diagnosis for chromosomal defects and genetic syndromes, intrauterine fetal surgery, prediction and prevention of preeclampsia, preterm birth, stillbirth. prediction and management of abnormal fetal growth, obstetric problems of multiple pregnancies, and medically assisted reproduction. Submissions of original unpublished studies are welcome, including observational and interventional studies as well as RCTs and reviews, with an emphasis on relevant clinical questions and quantitative syntheses (meta-analyses) of pooled data.

Guest Editor

Dr. Paolo Ivo Cavoretto

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418).

Diagnostics is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
