Editorial Board Members' Collection Series: Diagnostic Approaches to Gastrointestinal and Pancreatic Diseases

Message from the Collection Editors

Gastrointestinal and pancreatic diseases are a significant global health concern, necessitating precise and timely diagnoses for effective patient care. We invite research papers focusing on innovative diagnostic methods to further our understanding of these conditions. We encourage submissions that explore recent advancements in diagnostic technologies, such as cutting-edge imaging modalities and biomarker discoveries. It is our aim to share insights on how these approaches can enhance diagnostic accuracy and expedite patient treatment, spanning common gastroenterological and pancreatic disorders to rare and complex ailments. Additionally, we welcome research on genetics and molecular diagnostics in identifying hereditary gastrointestinal and pancreatic conditions. Emphasizing the role of artificial intelligence and machine learning in data analysis for gastroenterology and pancreatic disorders is also encouraged. Your contributions may significantly impact patient well-being and advance gastroenterology diagnostics. We await your valuable insights.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
