

Special Issue

The Role of Anatomy in Medical Diagnosis and Pathology Analysis

Message from the Guest Editors

Anatomy is at the forefront of a wide range of surgical specialties, from imaging and histological diagnostics to complex surgical interventions. The aim of this Special Issue is to explore the role of anatomy in determining a medical diagnosis and analysis of pathology. Both clinical and non-clinical and interventional and non-interventional diagnostic procedures rely on the foundations set by anatomical knowledge from the macroscopic to molecular planes. Surgeons rely on anatomical knowledge to formulate intraoperative diagnosis and perform novel procedures. In all medical sciences, anatomy is the foundation of knowledge. This Special Issue will showcase specific research focusing on the role of anatomy in medical diagnosis and pathology analysis.

Guest Editors

Dr. Vladimir Nikolenko

Department of Anatomy and Histology, Sechenov University, 119991 Moscow, Russia

Dr. Mikhail Yegorovich Sinelnikov

Department of Oncology, Radiotherapy and Reconstructive Surgery, Sechenov University, 119991 Moscow, Russia

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
