

## Special Issue

# Clinical Relevance and Usefulness of Strain Imaging

### Message from the Guest Editor

The journal *Diagnostics* (a PubMed indexed Journal; IF 3.1) is planning a Special Issue entitled “Clinical Relevance and Usefulness of Strain Imaging”, which will highlight the potential usefulness and clinical relevance of strain imaging in cardiovascular diseases.

Specifically, this Special Issue will address the clinical, prognostic, or diagnostic relevance of new imaging parameters such as left atrial strain, right ventricular strain, left ventricular strain, left ventricular diastolic strain rate, myocardial work index, mechanical dispersion, or new proposed strain indices or algorithms using speckle-tracking echocardiography or magnetic resonance in patients with diverse cardiovascular diseases. We are looking forward to receiving your contribution as an original research article, a review, a meta-analysis article, a systematic review, a clinical trial article, or a study design article.

---

### Guest Editor

Dr. Daniel A. Morris

Department of Internal Medicine and Cardiology, Charité-Universitätsmedizin Berlin, Campus Virchow Klinikum, Augustenburger Platz 1, 13353 Berlin, Germany

---

### Deadline for manuscript submissions

closed (30 November 2021)

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
