

## Special Issue

# Advances in the Diagnosis and Management of Temporomandibular Joint Diseases 2.0

### Message from the Guest Editor

The temporomandibular joint (TMJ) is a unique human joint. Different from other joints, such as the knee, elbow, etc., the left and right TMJs are connected by the mandible. Consequently, if one joint develops any problems, it is very probable that the contralateral side will show some alterations in the near future. In the past, diagnosis and treatment for temporomandibular disorders were based on orthopaedic studies; however, TMJ now has its own field of cutting-edge research. New technologies have been extremely useful for the treatment of TMJ. This Special Issue aims to provide the most recent diagnostic methods and treatment for the temporomandibular joint.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
