Special Issue

Diagnosis and Treatment of Oral Cancer

Message from the Guest Editors

Oral cancer is a prevalent malignant tumor worldwide, and the GLOBOCAN database and the World Health Organization indicate that its incidence will continue to increase. Early diagnosis can effectively prevent the malignant transformation of oral precancerous lesions into oral cancer, and effective diagnostic tools or biomarkers that can predict the prognosis of oral cancer need to be further proposed. This Special Issue of *Diagnostics* aims to explore innovative discoveries in the diagnosis and treatment of oral cancer and provide helpful solutions to this need. Research using basic science and clinical and population-based approaches is encouraged. Our goal is to demonstrate scientific progress in this field and pave the way for personalized precision medicine for human health.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418).

Diagnostics is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2024).
