

Special Issue

Data-Driven Intelligence and Innovation in the Era of Cloud-Based AI

Message from the Guest Editors

This Special Issue focuses on both theoretical and practical aspects of data-driven intelligence and innovation and the provision of smart digital solutions. Topics of interest include, but are not limited to the following:

- Data-driven intelligence
- Machine/deep learning innovations
- Merging cloud and AI
- Theoretical and practical advances of data mining
- Big data techniques and applications
- Complex networks (theory and applications)
- Complex graphs and systems (advances and applications)
- IoT/IloT/Sensors data-driven intelligence and innovation
- Smart digital solutions
- Smart industry enabled technologies.
- Cloud and fog digital applications
- Intelligent remote monitoring/control of critical infrastructures
- Machine intelligence
- Intelligent blockchain applications
