

Special Issue

Microbiota in Human Disease

Message from the Guest Editors

In recent years, there has been a growing interest in the research on the interplay between microbiota and hosts in the onset of several diseases. Some diseases have been associated with the disruption of the equilibrium in the gut microbiota, such as cancer and inflammatory diseases, but others could be related to gut microbial dysbiosis in their onset and progression. The aim of this Special Issue is to comprehensive report the state of the art of the link between microbiota and several infectious as well as communicable diseases. We accept reviews, original articles, and meta-analyses that describe the complex crosstalk between microbiota and hosts in the development of diseases, including the role of nutrition, physical exercise, immune disorders, and pollutants.

About the Journal

Message from the Editor-in-Chief

Diseases is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

Diseases is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, *Diseases* is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2024).
