

Special Issue

Global Patterns of Endemic and Threatened Species in Relation to Environment and Habitat

Message from the Guest Editors

This Special Issue will focus on analyses of selected endemics or globally threatened species in relation to biogeography, landscape ecology, and genetics/taxonomy. The purpose is to generate scientific information on selected taxa as a fundament for political decisions related to ecosystems or special regions. We thus welcome contributions on, for example, less-familiar mollusks or insects, as well as new insights on well-known vascular plants or vertebrates. This Issue focuses on taxa with a very restricted range or which are seriously threatened. In particular, we welcome submissions demonstrating how such studies have had an impact on policy (local, regional, or national).

Guest Editors

Prof. Dr. Carsten Hobohm

Interdisciplinary Institute of Environmental, Social and Human Sciences, University of Flensburg, Flensburg, Germany

Prof. Dr. Nigel Barker

Department of Plant and Soil Sciences, University of Pretoria, Hatfield 0028, South Africa

Deadline for manuscript submissions

closed (6 November 2021)

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q2 (Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.4 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2024).
