

Special Issue

Global Diversity of Lepidopteras

Message from the Guest Editor

Since I have been working for more than 10 years in collaboration with Mexican Institutions, and as member of the “Sociedad Mesoamericana para la Biología y la Conservación”, I propose a widely open Special Issue on butterflies. The goal of this proposal is that we may offer a panorama of the research developed on the Lepidoptera in this area, which hosts between 17% to 20% of the species of the world. We will favour high standard articles dealing with the biogeography, modelling distribution, behaviour, population genetics, systematic, and ecology of wild species, excluding agricultural pests.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q2
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.4 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2024).
