

## Special Issue

# Marginal Reef Systems: Resilience in A Rapidly Changing World

### Message from the Guest Editors

We invite submissions that focus on marginal reef types, their resilience to environmental stress and potential characteristics (e.g., species diversity, community composition, ecophysiology, functional coral traits, host symbiont associations) that contribute to their resilience and function. These studies can include local to global studies and site-specific case studies to meta-analysis approaches and can focus on the coral micro-biome to reef communities on both fossil and contemporary reefs. In doing so, this Special Issue will highlight new research and significant advances on these understudied reef systems, and re-assess their conservation value. Keywords:

- Coral reefs
- Marginal environments
- Ocean warming
- Resilience
- Biodiversity
- Coral reef conservation

---

### Guest Editors

Dr. Nicola Browne

School of Molecular and Life Sciences, Curtin University, Perth, Australia

Dr. Andrew Bauman

Department of Marine and Environmental Sciences, Guy Harvey Oceanographic Center, Nova Southeastern University, Fort Lauderdale, FL 33004, USA

---

### Deadline for manuscript submissions

closed (31 December 2022)

## About the Journal

### Message from the Editor-in-Chief

*Diversity* (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

---

### Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg  
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q2 (Agricultural and Biological Sciences (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.4 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2024).
