

Special Issue

Historical and Current Diversity Patterns of Mediterranean Marine Species

Message from the Guest Editor

I recently accepted an invitation to serve as the for a Special Issue of the journal Diversity on the subject of "Historical and Current Diversity Patterns of Mediterranean Marine Species". I am writing to draw this issue to the attention of yourself and other potential contributors, in case you would like to submit a manuscript for inclusion. In this issue, biodiversity in the Mediterranean Sea is described at a synchronic or diachronic level, highlighting the past two centuries for which museum collections can provide overlooked information. For more information about the Special Issue, please see:

https://www.mdpi.com/journal/diversity/special_issues/marine_mediterranean_species Diversity (ISSN 1424-2818, Impact Factor 2.047) is a fully open access journal, unlimited and free access by readers, which increases publicity and promotes more frequent citations, as indicated by several studies. Any questions, please feel free to contact Diversity office (diversity@mdpi.com).

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q2 (Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.4 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2024).
