

# Topical Collection

## Feature Papers of Drones Volume II

### Message from the Collection Editors

As editors of *Drones*, we are pleased to announce a topical collection entitled “Feature papers of *Drones*—Volume II”. This topical collection will be a compilation of articles, communications, and review articles from top researchers describing novel or new cutting-edge designs, developments, and/or applications of unmanned vehicles (aerial, terrestrial, or water/underwater). We welcome the submission of manuscripts from Editorial Board Members and outstanding scholars invited by the Editorial Board and the Editorial Office. Prof. s

## About the Journal

### Message from the Editor-in-Chief

*Drones* is the only international open-access journal about the science, policy and technology of drones and its applications. Nowadays, the proliferation of drones is a reality for local policy makers, regulatory bodies, mapping authorities, startups and consolidated companies. There are many uses and benefits of drones: from the emergence of new sensors and the evolution of new platforms; to the development of specific software and the emergence of new applications. *Drones* publishes reviews, regular research papers, communications and short notes, without restriction on the length of papers. *Drones* seeks to provide a central forum for scholars engaged in drones' research and applications.

There is a need for high quality papers in this area and the *Drones* Editorial Board are widely recognized international leaders. *Drones* journal guarantees a serious peer review and a rapid publication across the whole discipline of drones.
