Special Issue

Recent Advances in Multimedia Signal Processing and Communications

Message from the Guest Editor

In this Special Issue, we are particularly focused on recent developments in multimedia content processing and delivery over heterogeneous networks, as well as emerging multimedia applications. Keywords:

- Speech/music/audio processing
- Image/video processing
- Multimedia communications and networking
- Internet of Things (IoT)-based multimedia systems and applications
- Deep learning for multimedia
- Multimedia big data analytics
- Multimedia processing for health care
- Multimedia systems for emerging applications

Welcome to contribute!

About the Journal

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.
