

## Special Issue

# The Challenges in Brain-Computer Interface (BCI) - toward Practical BCI

### Message from the Guest Editors

This Special Issue aims to share the current state-of-the-art trends and future directions in the BCI field, thereby encouraging the development of practical solutions. It will focus in the challenges in practical BCI, including but not limited to:

- Enhanced BCI Performance: Development of new devices, algorithms, and paradigms;
- Reliable BCI: Evaluation of test-retest reliability and session-to-session transfer based on multiday datasets;
- Ambulatory BCI: Development of portable, easy-to-use, and wireless EEG/NIRS recording systems and their related methodologies;
- Neuromodulation-based BCI: Use of electrical and magnetic brain stimulation to improve the performance and reliability of BCI systems;
- Practical BCI: Development of BCI applications, e.g., rehabilitation, entertainment, drowsiness detection, emotion decoding;
- Development of new artifact rejection algorithms for EOG, EMG, ECG, etc.;
- Releasing publicly available BCI datasets;
- Review/survey articles.

Welcome to contribute.

---

### Guest Editors

Dr. Han-Jeong Hwang

Department of Electronics and Information Engineering, Korea University, Seoul, Republic of Korea

Dr. Chang-Hee Han

Department of Software Engineering and Theoretical Computer Science, Technical University of Berlin, Berlin, Germany

## About the Journal

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

### Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and Telecommunications, Politecnico di Torino, 10129 Torino, Italy

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

#### Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q2 (Control and Systems Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.4 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2024).
