

## Special Issue

# Advanced Solar Thermal Technology

### Message from the Guest Editors

The aim of this Special Issue is to showcase the advances in Solar Thermal Technology in terms of theoretical, experimental and economic studies and to provide a deeper understanding of contemporary trends. Topics of interest for this publication include, but are not limited to:

- Solar thermal collectors (materials, heat transfer fluids, absorber technology, design, performance analysis)
- Solar thermal systems for heating, cooling and/or steam production
- Compact thermal energy storage (phase change materials, tank design)
- Smart control systems, real-time monitoring
- Hybridisation of solar thermal systems with biomass, heat pumps and/or other technology as a holistic solution for the heating and cooling loads
- Case studies of innovative applications
- Environmental footprint of solar thermal collectors and systems
- Solar thermal systems use in district heating, energy cooperatives, ESCOs

Creative extensions of the abovementioned topics are also welcome.

---

### Guest Editors

Dr. Rosa Christodoulaki

Centre for Renewable Energy Sources and Saving, Solar Thermal Systems Department, 19009 Pikermi Hellas, Greece

Prof. Dr. Irene P. Koronaki

Laboratory of Applied Thermodynamics, School of Mechanical Engineering, Thermal Engineering Section, National Technical University of Athens, Heroon Polytechniou 9, Zografou Campus, 15780 Athens, Greece

---

### Deadline for manuscript submissions

closed (16 October 2024)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
