

Special Issue

Wave Energy: Theory, Methods, and Applications

Message from the Guest Editors

Interest in utilizing ocean waves for energy has now grown to a point where the field needs no introduction. As long-time researchers in wave energy, we are interested in helping to keep the field vibrant, exciting, and ultimately beneficial to the global community at large. We welcome all wave energy researchers, early-stage and established, to consider this Special Issue as a vehicle for your new ideas and want to encourage you to submit work that you feel excited about. We are particularly interested in papers that describe new energy conversion principles, new hydrodynamic insights, new analysis techniques, and new applications. Papers describing experiences from at-sea testing are also welcome.

- wave energy
- energy conversion principles
- hydrodynamics
- theory
- applications
- at-sea testing

Guest Editors

Prof. Dr. Umesh A. Korde

Department of Environmental Health and Engineering, Johns Hopkins University, Baltimore, MD 21205, USA

Prof. Dr. Michael E. McCormick

Department of Naval Architecture & Ocean Engineering, United States Naval Academy, Annapolis, MD 21402, USA

Deadline for manuscript submissions

10 April 2025

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
