Renewable Energy Solutions for Baltic-Nordic Region 2024

Message from the Guest Editors

The aim of the Biosystems Engineering Conference (BSE) is to become the leading annual conference in the Baltic region for fields related to traditional and modern engineering techniques and technical solutions applied to biological systems. The goal of BSE 2024 is to gather scholars from all over the world to present advances in the fields of biosystems engineering and to foster an environment conducive to exchanging ideas and information. This year, the conference will take place virtually on an e-platform. However, we still hope to provide an environment in which attendees can develop new collaborations and meet experts on the fundamentals, applications, and products of the abovementioned fields. Among the more prominent topics of the conference are energy and fuels from renewable sources, bioenergy, waste-to-energy, energy efficiency, etc.

Guest Editors

Dr. Marcis Jansons

Prof. Dr. Timo Kikas

Dr. Lisandra Rocha Meneses

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
