

Special Issue

Application of Management Tools in the Energy Sector in 2022

Message from the Guest Editors

The requirements of modern management, Industry 5.0 for green energy manufacturing, sustainable development or cloud management impose the requirement to use modern management concepts, new methods or intelligent and quick decision making tools, as well as an agile thinking that accompanies organizational development. For this reason, we are inviting submissions to a Special Issue of *Energies* on the subject area of "Application of Management Tools in the Energy Sector". This Special Issue will deal with novel management concepts, methods, tools, and techniques for energy enterprises and chains. Topics of interest for publication include but are not limited to: Energy management system; Management concepts, methods, and tools in the energy sector; Management tools in decision-making processes; Supply chain optimization; Application of IoT and/or AI for energy systems; Control method of energy flow; Renewable energy; Demand-side management; Lifecycle management.

Guest Editors

Prof. Dr. Joanna Kulczycka

Department of Business Management, AGH University of Science and Technology, Krakow, Poland

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
