Special Issue

Advances in Motor and Drive

Message from the Guest Editors

The are inviting submissions for a Special Issue of *Energies* on the subject area of "Advances in Motor and Drive". It is commonly acknowledged that most recent industrial applications and home appliances need high performance motors and drives. The characteristics and specifications of these vary greatly depending on their respective applications. This Special Issue will focus on recent advances in motor designs and drives for the requirements of their applications. Design methods, control strategies, and analyses for the purpose of their applications shall be introduced.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
