

Special Issue

Photovoltaic and Other Technologies in Energy Storage

Message from the Guest Editor

The main objective of this [Special Issue](#) is to report and disseminate inspiring innovative ideas and the most up-to-date research developments related to the theory, design, modelling, fabrication, material requirements, application, and control of all types of photovoltaic and other renewable technologies for energy storage. Topics of interest for publication include, but are not limited to:

- solar cells
- renewable technology
- novel materials
- smart energy
- energy management strategies

Guest Editor

Prof. Dr. Syed Abdul Moiz

Department of Electrical Engineering, Umm Al Qura University, Makkah 21955, Saudi Arabia

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
