Special Issue

2nd Young Scholar's Symposium on Battery Design and Management (BDM 2017)

Message from the Guest Editors

It is our pleasure to announce that the 2nd Young Scholar's Symposium on Battery Design and Management will be held this year in Tongji University, Shanghai, China, from June 8 to 10, 2017. The symposium was held for the first time last year (2016) in Tsinghua University, China. Around 100 young scholars from all over China, whose research interests fall into the fields of battery design and management, attended the symposium. There were many discussions regarding the science and technology of battery design and management in the symposium. The Young Scholar's Symposium on Battery Design and Management encompasses a range of disciplines concerning the technologies of battery design, modeling, state estimation, thermal management and safety, etc. This symposium aims to establish close links among these fields, set up system science based on knowledge from other sciences and promote multidisciplinary solutions to settle the complex battery system problems. The conference website is:

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
