

Special Issue

Building Energy and Environment

Message from the Guest Editor

This Special Issue is focused on advanced strategies and solutions in minimizing energy use (passive strategy, green remodelling, highly efficient systems and facilities, etc.) and sustainably covering the energy load (renewable energy integration, energy balancing, building energy management system, etc.). Besides, Effective methods towards balancing building energy use and indoor environment (human health and comfort) are also significant.

Guest Editor

Dr. Jin-Hee Kim

Green Energy Technology Research Center, Kongju National University, Cheonan, Chungnam 330-717, Korea

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
