

Special Issue

Digital Forensic Technologies for Introspection of Cloud Computing Platform

Message from the Guest Editor

This special issue is aimed to contribute to this research on topics related to introspection of cloud computing platform and forensics technologies for cloud computing. Topics of interest for submission include, but are not limited to:

- Forensics for Cloud Computing Platform
- Memory forensics for hypervisor
- Network forensics for software-defined network in cloud computing platform
- Cloud application forensics
- Forensics-as-a-Service
- Legal aspect of cloud investigations
- Case studies related to cloud forensics
- Current and future trends in cloud forensics
- Digital evidence search and seizure in the cloud
- Cloud forensics analysis
- Incident handling in cloud computing
- Tools and practices in cloud forensics
- Challenges of cloud forensics
- Cybercrime investigation in cloud computing

Guest Editor

Prof. Dr. Ki-Woong Park

Department of Computer and Information Security, Sejong University,
(05006) 209 NeungDong-ro, Gwangjin-gu, Seoul, Republic of Korea

Deadline for manuscript submissions

closed (30 June 2021)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
