

Special Issue

Decoupling Economic Growth from Energy Use: Transition to the Low Carbon Economy

Message from the Guest Editor

To contribute to the ongoing debate on how to enhance sustainable and green growth, the proposed special issue welcomes papers on green growth and decoupling economic growth from energy use. In this matter, any proposed innovative solutions to shift toward green growth, or the ways how to decouple economic growth from carbon emissions are especially welcomed.

- Green Growth
- Low Carbon Economies
- Decoupling
- Economic Growth
- Energy Use
- Renewable Energies
- Sustainable Energy Consumption
- Clean Energy Demand
- Environmentally-friendly technologies
- Innovation

Guest Editor

Prof. Dr. Adel Ben Youssef

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Aerospace Engineering, University of Roma Sapienza, Via Eudossiana 18, 00184 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
